Description

Chest of drawers in the shape of a tomb in walnut, opening with 4 drawers, Languedoc work from the 18th century, a beautiful quality of wood and a perfect condition for a piece of furniture from this period. A beautiful harmony of curves and counter-curves make this chest of drawers an elegant piece of furniture with perfect dimensions: 125x65 height: 86cm. Note an old small graft on the left rear foot as well as the bronze games which must have been changed towards the end of the 19th century. A beautiful natural patina highlighting the walnut wood allows you to imagine and integrate this beautiful piece of furniture into different interior styles.
