Description

We present this vase from the Gallé house in Nancy, decorated with a Vosges landscape. A vase of great value, it was worth up to 10,000 Euros. Unfortunately ours is no longer anything more than a document, since it suffered a big shock and was broken, we entrusted it to our restorer who works wonderfully well and we asked her to put it back in shape without trying to disguise it. Sold as is. Weight 2.7 kg
