Description

Terrestrial globe signed "Globe trique. E. Bertaux éditeur. G. Thomas, Sucr". The globe can therefore be dated between 1904 and 1914. It measures 25cm in diameter and approximately 43cm in height. The globe with polar mount is placed on a turned blackened wooden base. Despite a sinking in Siberia and a slightly erased map of the Russian Empire, this globe is in fairly good condition with its map still in good color.
