Description

Large and beautiful Napoleon III chandelier with pendants, 19th century. Silver-plated bronze structure, richly decorated with garlands and glass and crystal pendants, some of which are smoky brown and mauve. Original model that we found unelectrified, meaning it had only been used with candles. The entire electrical system is therefore completely new. In total 9 light arms, therefore 9 screw bulbs Model E14. Rather heavy, about 15 kg. The given height does not take into account the golden trimmings. We can therefore add about 30 cm.
