Description

Large trumeau supported by carved cantilever feet, in the lower body it has three drawers plus one of reduced dimensions flanked by two drawers to support the upper opening flap door and concealing cabinet with drawers, document compartments and a central door. The upper body has two storage drawers surmounted by a pair of doors with mirrors, in which there is an architectural castle, with two tapered pilasters that frame two doors and two central drawers, on the sides two rows of drawers, while in the upper part various compartments for documents and a compartment in the upper part. There are also several secrets, such as the capitals of the pilasters, which can be pulled out in a drawer. Entirely veneered in briar walnut, while all the frames and carved columns of the interior are
