Description

Rare rectangular LIP BESANCON watch, model T20, preceding the T18, 1930s. Black background, radium numerals and hands (phosphorescent, allowed to read the time at night), small off-center hand. Very beautiful case, uncommon, "stepped"; winder changed. Domed glass, (some scratches), rooster's foot bracelet. Numbered on the back 079572. I have owned this watch for over 30 years, it worked very well for years; I haven't worn it for a while, it has stopped and needs a service and a good cleaning. I am not a watch specialist, but I know that it is a nice and rare model... Dimensions = 20 mm x 35 mm x 8 mm; weight with the bracelet = 26 grams.
