Description

Portrait of the Louis Philippe period, canvas on its original frame, soberly gilded. This lady of quality with pretty tan, with her black hair tied up in a bun, observes us with her beautiful direct gaze, she wears a gold set and is visibly well dressed in a dark dress with a high belt closed by a square gold buckle. She is visibly a lady of condition, in the beauty of her thirty years, with regular features, she holds the pose of three quarters and is finely represented with a smooth pictorial material. A successful portrait I think, a commissioned work, very pleasant, with a friendly face, it would be the least to accompany you on her wall, where I am sure she will protect you with her beautiful eyes full of benevolence, clean and recently cleaned a beautiful decorative work of beautiful proportion...
