Description

Rare pair of large bronze candlesticks bearing the engraved inscription: Sebas.us Brandius 1644 (Sebastiano Brandi 1644). These are the so-called "rocchetto" models, produced in Tuscany between the mid-16th and mid-17th centuries. The rarity of this model depends both on the fact that they are two authentic 17th-century models and not later copies, furthermore stamped and dated, and on their extraordinary size, which once assembled reaches 64 cm in height. Beautiful original patina, small signs of wear. Measurements H to nail cm 64 H without nail cm
