Description

18K Yellow Gold Backlite Cameo RingThis taupe-colored bakelite ring offers a smooth, shiny texture that is both modern and refined. A dark brown cameo is beautifully sculpted, offering a relief inspired by antique jewelry. The outline is all in 18K yellow gold, which brings a luminous and precious touch to the design. In terms of style, it presents a perfect balance between chic and bohemian, ideal for those who like to stand out with subtlety. It is certainly voluminous but ultra-light, it can be worn with ease on a daily basis or on special occasions. In short, its unique design is refined and soft, which enhances the bakelite and the cameo without weighing down the whole.
