Description

A subject "a goddess" can be Isis...? In cast bronze... She is full, without trace of formwork... With lots of imperfections due to fusion... And lots of dirt in the hollows... I left it in its juice... With a green patina or is it the oxidation of time...!? EGYPTIAN origin... The period is still unclear to me... Like this: from the 18th century... Otherwise in good condition... Weight ... 210 gr
