Description

Elegant chest of drawers made of walnut wood of French origin. It has a curved front with three drawers worked in carving, in low relief, with plant motifs, with oblique and turned pilasters on the sides. Shaped wooden top, notched sides and front feet of the furniture with a curl. The chest of drawers is completely restored and is complete with its original locks, while the handles of the furniture have certainly been replaced over time always with antique handles and escutcheons but not original to the furniture itself. It should be noted that the front curly feet were certainly very damaged and worn which have been restored and integrated with skill.PERIOD 18th centuryDIMENSIONS L. cm 129 x D. cm 61 x H. cm 92.5CONDITIONS Excellent state of conservation "restored"
