Description

18th century diorama painting depicting a child Jesus accompanied by several angels. Very interesting and rare piece animated by characters and birds accompanied by fruits and flowers in a lush and idealized nature. Note a very good original condition and freshness, a small element to reattach. But this religious art object intended for a private oratory has never been, as if miraculously, restored. Very beautiful colors and very beautiful patina on the wax bodies. Collector's item and very beautiful decoration at the same time. Possibility of sending in France and worldwide by secure and insured package with order tracking or professional carrier. Invoice and certificate provided.
