Description

Gallé Establishments, period 1908-1920Multi-layered glass vase with acid-etched decoration of flowers in shades of green, yellow and orangeSigned "Gallé"Height. 12.5 cm; diameter approximately 11 cmThis vase, produced by Gallé Establishments after the death of Emile Gallé, is characteristic of his fine production in acid-etched multi-layered glass. The process is achieved by arranging several layers of glass in several different colors, then drawing a decoration which is then etched with acid.This signature is characteristic of the period 1908-1920.
