Description
-------------

Gold leaf and dark ultramarine blue acrylic paint. The color of the gilding varies depending on the lighting, the viewing angle, and what's in front of it that may be reflected. It changes from light gold to a warmer, browner gold, and therefore changes throughout the day. The combination of the sun, a warm and luminous gold color, and the night, a rather dark, cooler blue, very modern in its abstraction and minimalism and elegant in its gold, size 80/100 cm. By Elie d'Oleron, an artist I represent exclusively, sold with a certificate of authenticity. Elie d'Oleron is an artist based near Oléron who received a highly academic education in his youth and who today has passionately turned to abstraction and minimalism, combining modernity and classical tradition.
