Description

A delightful item for a lady's boudoir and an ideal gift for yourself or a loved one; this 19th-century mirror is made of heavy solid silver. Weighing 170g, the modeling is superb, with foliage, garlands, and charming grotesques. It is hallmarked with three hallmarks: a fleur-de-lis; a shell; and a 'u'. It has a small ring on the back for hanging. It can, of course, also be used as a photo frame.
