

Pair Of "mauchline" Trays On Sycamore Feet And Transfer Image Cherbourg 19th Century

120 EUR

Period : 19th century

Condition : Parfait état

Material : Solid wood

Diameter : 7 cm plateau

Height : 4.5 cm

Description

Made of turned sycamore wood on a pedestal, here are two souvenirs from Cherbourg with supporting images. However, these 19th-century pieces were made in the small town of Mauchline in Scotland, which had become a specialist in the manufacture of small souvenir objects for all of Europe. All you had to do was order objects with transfer images of the town where your shop was located in order to sell "souvenirs" to tourists on a spree. Shipping in France and internationally, contact me for terms
