Description

Rare and unique pine sideboard, model designed for "Les Arcs" by Charlotte Perriand. It consists of two storage cupboards and features the pretty details characteristic of the designer's signature handles. Remarkable feature: the back of the sideboard is also made of pine, which allows it to be used as a partition or divider in a room, without necessarily placing it against a wall. This is also the purpose for which it was designed and used at the Les Arcs ski resort. In good condition, with some signs of wear due to age.
