

Chandelier By Gino Paroldo For Fontana Arte

9 000 EUR

Period : 20th century

Condition : Bon état

Material : Glass

Diameter : 104

Height : 77

Description

Chandelier by Gino Paroldo for Fontana Arte This very rare ceiling light is made of brass with 24 light points surrounded by colored smoked glass. Each glass element has a shiny surface that reflects the lamp. This creates an optical illusion, it looks like the number of light points has increased. 77 cm high and 104 cm in diameter. One of the colored glass elements has been restored. In good vintage condition, this fantastic piece is part of a set. (see other listings) High quality Italian design from the 1950s
