

Danish Floating Cabinet, Denmark, C.1960

1 350 EUR

Period : 20th century

Condition : Bon état

Material : Teak

Width : 80

Height : 90

Depth : 31,5

Description

A rare floating teak cabinet featuring a tambour door that opens to reveal adjustable shelves. Versatile in function, it can be used as a bookshelf or even a dry bar. The dovetail joints showcase the Danish commitment to exceptional craftsmanship. Subtle signs of use and a gentle patina add character, but the piece remains in very good overall condition. Denmark, circa 1960.
