Description

This exceptional necklace embodies the elegance of Art Nouveau in all its splendor. Its meticulously sculpted and patinated 18K yellow gold leaves blend harmoniously with opals, creating subtle variations in light. It is also adorned with rubies, diamonds, and a fine pearl, suspended like a delicate dewdrop frozen in time. Did you know? Gold, heated to precise temperatures, reveals unexpected nuances--golden, glowing, or iridescent reflections. A technique prized by Art Nouveau artisans, who sought to capture the changing, organic beauty of nature.
