### Description

Niche. Carved and polychrome wood. 16th century. Wall niche with a rectangular front opening finished in gold with two polychrome angel heads in the corners and a dark polychrome space with classical elements in gold (candlesticks with grotesques, latticework, foliage, etc.). The base has a polygonal front finish, with a red edge, like the rest of the piece. This type of pedestal was very common in private oratories, both in civil (houses, etc.) and religious (convents, chapels, etc.) environments, to place and highlight small sculptures. Weight: 850 grams. - Dimensions: 18x9x47 cm
