Diameter : 2,30 m

Depth : 50 cm

Description

LARGE WALL FOUNTAIN BASIN Half-moon basin Circa 1830/1850 Diameter: 2.30 m Radius: 1.20 m Basin depth: 50 cm Height of the whole: 70 cm Burgundy stone Scalloped peripheral lip with sculpted palmette motif Elegant large corolla on the underside. Piece to be inserted into a wall at an adequate height. The rear of this monolithic basin is made of a solid block to be inserted into the supporting wall. The basin shown resting on rafters in our photos will emerge from the wall over a radius of 1.20 m at the front. The seat on the wall represents a length of 2.30 m. The depth of the part anchored to the wall measures 25 cm Several steel reinforcements are to be provided in the thickness of the wall in order to contain the weight of the basin. Our restoration workshop is currently repairing the wear of use We can supply
