Description

Solid silver bottle cooler by Aucoc, Paris, modern period Elegant bottle cooler in 950 sterling silver, made in Paris by the prestigious Aucoc house, a famous Parisian silversmith active since the 19th century and supplier to the great European courts. This small model, refined in its execution, was probably intended to hold a half-bottle or a small individual bottle of white wine or champagne, during elegant dinners or as part of a luxurious table service. The sober and balanced silhouette rests on a circular pedestal decorated with chiseled water leaves, a classic motif of the neoclassical repertoire. The smooth body is highlighted in its upper part by a frieze of raised pearls, framed by stylized moldings, and punctuated by rosette medallions in slight relief. The interior is decorated with the same leafy
