### Description

Charming bronze representing a child with outstretched arms and a crown of laurel and wheat on his head, probably an allegory or perhaps simply Ceres as a child. The attitude is pleasant with a pretty smile. The cast is naive and slightly thick, the patina is reminiscent of cast iron. moreover, it is a very beautiful old patina. It rests on an old powder pink velvet base. A bronze dating from the end of the 18th century, beginning of the 19th century. A charming theme. Dimensions: 20 cm high with the base.
