Description

Candlestick. Bronze. 17th-18th centuries. Bronze candlestick with a circular base whose axis combines discs, balustrades, smooth areas, concave and convex moldings of different widths, etc., creating a very lively profile, common to this type of piece since the Baroque in various European schools and reminiscent in some details of the so-called coil candlesticks. Weight: 520 gr.
- Dimensions: 21x21x55 cm
