Description

I offer you this set of 6 antique-style figures in white and gold Neapolitan Capodimonte porcelain. The set is well preserved, I note traces of restorations on one of the figures which has its hand raised, its arm has been glued back, as well as its drapery on the back and a small end is missing on the drapery as well. Small lack in the hand of one of the subjects of the 4 seasons (summer). Very decorative! Height: from 19cm to 21cm for the largest. Contact me for shipping by colissimo in France and worldwide.
