Depth : 35,5

Description

Set of 4 bar stools from the Lapalma brand, Italian design. LEM collection (Lunar Excursion Module) in reference to the trip to the moon in 1969. This model was designed by Shin and Tomoko Azumi. They are fixed height and swivel. The seats are made of wood with a dark patina. The structure is made of matte chrome steel, the base is made of metal covered with stainless steel in a "linen" finish (small roughness that prevents slipping). Good used condition, some small wear or defects due to age, not serious. Very good condition of the metal structures. We can have a large number of lots: 25 lots of 4 available (100 pieces)
