Description

This pair of mid-20th-century French Riviera bamboo rattan lounge chairs features a circular bamboo frame with hand-woven rattan. The design is both elegant and exceptionally comfortable, making it a perfect addition to any living space. Manufactured in the South of France during the 1960s, these chairs boast beautiful details and perfect proportions, ensuring both style and durability. They are robust and in very good condition, with a seat height of 36cm. The chairs are in perfect original condition, with only normal minor wear to the wrapped edges of the rattan, which does not compromise the overall structure. These lounge chairs are a timeless statement piece, ideal for relaxing in style.
