Description

Pair of French Art Déco Ceramic Candlesticks in Fir Green Cord Look 1930sThe candle holders have the appearance of a twisted rope or cord.The moulded, raised cord is oval at the base. The round centre pieces tied in a knot and the candle holders are made of flat pressed cord.The character of the cord, its flat-grooved or bulging-twisted structure are perfectly realised in the candle holder.The fir green colour with the glossy glaze and the contrasting black brushwork create an exciting dialogue with the slightly rustic object. Extremely decorative and objects with strong expressiveness, also very nice to the touch and feel.
