

Pair Of Scandinavian Style Teak Armchairs From The 70s

1 100 EUR

Period : 20th century

Condition : Bon état

Material : Teak

Length : 67

Width : 69

Height : 87

Description

Nice pair of Scandinavian style teak armchairs from the 70s. They are elegant, comfortable and blend well into a decor of another style. The cushions (padding) are in good condition, perhaps the fabric should be changed according to your taste. They have some marks of use but nothing important to report. Know that you are not buying new, this necessarily means that the object of our desires will have some defects (more or less discreet!), it also means that we must accept it as it is. Overall dimensions: 67cm x 69cm x 87cm total height x 43cm seat height.
