### Description

18th century and Louis XIV period chest of drawers in solid walnut wood. Very beautiful crossbow chest of drawers with three rows of drawers equipped with very beautiful gilded bronzes. Note the presence of its original top in very good condition, which is very rare with a very pretty and deep patina. Very good size, 120.5 cm wide at the top, which allows it to be positioned even in an average room. A slight restoration of 2 cm on a rear foot to note, which is rare on a piece of furniture from this period. Overall a very pretty natural piece of furniture with a deep patina which will give a very beautiful presence to a beautiful interior. Possibility of sending by professional and specialized carrier throughout France or abroad.
