Description

Solid silver cutlery set consisting of 12 table settings (24 pieces: 12 forks and 12 spoons). Beautiful production from the early 20th century, Louis XVI style, chiseled with rows of pearls and acanthus leaves in clasp after the model of the house Puiforcat. The proportions are beautiful, the pattern is neat and the chiseling deep. The Louis XVI models also have the great quality of being very easy to match with a knife set. The handles of our cutlery do not bear a monogram: you can therefore engrave yours, or your coat of arms. Each piece bears the Minerva 1st title hallmark (950 / 1000 silver alloy) as well as the hallmark of the Parisian silversmith Ernest Prost. The set is in excellent condition. Length: 21.5cm
Net weight of silver: 2070g
