Description
-------------

Chesterfield leather office chair, solid mahogany frame, designed by Ring (Mobelfabrik Norway) from the 1950s. It rests on original casters, the quadripod X-shaped base is made of solid mahogany. Swivel, equipped with a mechanism for adjusting the tilt as well as the seat height in leather, the horseshoe-shaped backrest is made of turned bars. The end of the backrest is curved, the armrests are upholstered in leather. The Ring factory collaborated with the designer Charles Eames for the creation of certain armchairs!
