

## 19th Century Walnut Sculpture

350 EUR

Period : 19th century

Condition : Quelques manques

Diameter : 10,5 cm

Height : 32 cm

### Description

Beautiful walnut sculpture probably representing a man standing in a posture which suggests that some elements are missing (a cane?) as well as an incomplete wooden board and 1 metal rod on the head which must have held something? A missing thumb, 1 crack on the back and some chips at the base.
