Description

A perfectly functional opera lorgnette. There is a crack and other minor damage to the wood-effect resin surrounding the front lens. Some signs of wear on the outer morocco. Do take note of the attractive green tint on the inner tube, embellished with some gilding. To the naked eye, the glass lenses show no damage. Under lamplight, there are some traces of fog, small stains, and dust on the front and rear elements, with little or no impact on visibility.
