Description

Charming vase in the spirit of the productions of the Italian Renaissance, signed under the sole with the rooster Italy P/4 5I (Savona). This piece in perfect condition is a feat of sculpture and enameling on delicate tones of old gold and almond; this quality piece was part of the refined souvenirs sold in Tuscany to a select clientele, respecting the ancient know-how of the Master Potters; an ancestral practice recognized throughout the world; the bold shape of the handles in plume with its generous and very appropriate volutes underlines the winding body of this small but very decorative "Medici" piedouche vase, the glazed colors offering a neat decoration, in a successful and very inspired ornamentation with beautiful delicate colors. A truly beautiful piece, a curiosity in perfect
