240 EUR

Period : 20th century

Condition : Très bon état

Width : 12,5 cms pour la base carrée

Height : 45 cms au total.

Description

Interesting lamp formed by a large alabaster obelisk, placed on a base of the same material. The obelisk lifts to reach the bulb. It replaces without problem, wedged by the 4 small spheres. One of the sides of the lamp is decorated with a darker diamond, also in alabaster. The material is slightly transparent, which gives a soft light. Perfect working order. Circa 1970. France.
