Description

Superb pair of clear glass vases, richly decorated with fine gold floral motifs in the Art Nouveau style. The sinuous lines and plant decoration perfectly evoke the aesthetics of the late 19th and early 20th centuries. Each vase has a slender shape with a flared neck and a widened foot, highlighted with a delicate gold thread. The gilding is meticulous and very fine. Although they are not signed, the style, the quality of the glass and the elegance of the decoration are strongly reminiscent of the creations of the Baccarat crystal factory of the same period. Height: 25 cm Condition: excellent, no chips or cracks. Gilding intact. Rare pieces, ideal for a collection or refined decoration.
