Description

Here is a surprising and heavy object-sculpture, inspired by the fabulous fountains of Palace of Versailles, a composition of a beautiful, muscular bearded triton, with dark patina carrying on his shoulder, in a powerful gesture, a marine conch. Triton, demigod of the sea - Son of Poseidon and Amphitrite.... Dimensions: 23cm x 18cm x 11cm, This object weighs nearly 4KG. Very elaborate sculpture, cast from 5 screwed, chiseled elements, two patinas. I saw two traces of restoration: raised arm pegged, barely visible, fixing of conch to tail redone: see detailed photo. But I did not see any signature. Work of a Parisian bronzier, 19th century, a superb object. Tracked and insured shipping from France to USA is EUR100. This object is for immediate purchase, payable by credit card or paypal. - eclectic -
