Description

I am offering you this oval egg cooker in green sheet metal from the early 19th century with swan necks resting on 4 claw feet. The lid opens in two halves, the handles forming pine cones. Inside there is a basket containing the eggs. The green patina is not original, you can see the old red and gold lacquer in places. It is in good condition for its age, in used condition. Maximum width: 27cm Maximum height: 23cm Depth: 11.5cm
