Description

Pair of table or bedside lamps in matt black lacquered bronze, signed on the base. The shank has a stylised naturalistic character - a volute, 2 flat discs and a half blossom are arranged independently of each other on a structured shaft. A smooth plinth with a distinctive signature on 4 small carved feet. Surreal design, the subtleties of which can only be recognised at second glance. A slender and conical silk shade made of a coarse cream-coloured silk perfectly matches the slightly brutalist-looking lamp base. Famous artists who worked for the manufactory, such as Mathias, Stéphane Galerneau, Pierre Casenove. In the style of Mid-Century Modern, Garouste et Bonetti, Giacometti, Maison Jansen, Baguès, Charles,

Hollywood Regency.
