Description

Original gilded brass lamp supporting a large amethyst in a lively corolla. In the style of Willy Daro, a famous Belgian designer from the 70s, known for using natural materials, brass, fossils (which he uses especially in his coffee tables), shells or stones. He particularly likes, in his creations, to play on the contrasts of materials, and to be inspired by botany. What can be observed in this very interesting lamp. This lamp is in perfect condition, new custom-made lampshade
