

## Wrought Iron Hook Removal Ingots Irons

55 EUR

Period : 18th century

Condition : Très bon état

Material : Wrought iron

Length : 15 cm

### Description

Wrought iron hook used to ensure the removal of iron ingots (exiting the iron, putting it in the fire, etc.). Proximal gripping part in a coiled shape. Distal part in a square section. Object in good condition. Rare object because no one paid attention to this type of hook in the past.
