Description

This pair of wall sconces from the 1970s embodies the expertise of Murano glass masters. Each of the sconces consists of a half-cylinder of glass with subtle contrasts: the exterior offers a smooth wall that captures the ambient light and reflects it delicately, offering a soft and refined touch. The interior reveals crushed fragments. This internal structure, with a transparent amber tint, diffuses the light with a warm and sparkling intensity. The glassware is firmly fixed to its gilded steel support by two plexiglass cabochons, there are two sockets per sconce. Bulbs included. Price for the pair. H 35 CM X W D 10 CM XL 8 CM. Shipped in a neat package, 100% insured of its value.
