Description

Art Deco sculpture from the 1930s and 1940s representing a young panther. Very beautiful unsigned sculpture resting on its saddle-stitched leather base, also in very good condition. The artist has skillfully rendered the power and the lascivious side of the wild animal in an attitude of rest and stretching, thus highlighting its musculature. A very typical Art Deco collector's item for a beautiful interior or a beautiful animal collection. Very beautiful dark patina of the original bronze. Possibility of sending in France and worldwide by secure and insured package with order tracking.
