

## Farrier Hammer System Cane

200 EUR

Period : 20th century

Condition : Très bon état

Material : Bronze

Length : 91 cm

### Description

This cane, called Farrier's cane or hammer cane, is a specific model intended for horse owners and their employees because the handle, here in silver-plated bronze, made it possible to clean or fix a horse's hoof in poor condition in a few common manipulations. The silver-plated bronze "hammer" handle shows some wear to the silver plating due to its good use. Shipping in France and internationally, contact me for terms and conditions
