Description

Magnificent work of wood carving representing the baptism of Christ from the 19th century.

Scene done in low relief on an oval beech wood panel stained dark brown. Frame applied around the scene also made from a single piece of wood with abundant plant decoration of palm leaves, reeds, water plants etc. I see no lack in the sculpture. Original suspension ring on the back.

Note: true technical performance of an experienced cabinetmaker. Delivery: EUR15 for mainland France.
