Description

Large vintage four-door sideboard in lemonwood veneer and blackened wood (length = 245.5 cm). Excellent manufacturing quality, French or Italian (?). The interior is entirely veneered in birch, including the drawer bottoms. The shelves are adjustable in height, on brass pegs. The whole is assembled with screws and lag screws. The doors all have opening compasses, to avoid accidents at the pivots. The blackened wooden base, very recessed, gives it elegance and lightness. Excellent general condition, with some traces of use without seriousness consistent with age and use; the keys are present, but not functional, the rod locks are complete and removable, but the doors remain firmly closed when pushed... Length = 245.5 cm; Depth = 52 cm; Total height = 92 cm, at the top = 89.5 cm. More information
