Description

Here is a characteristic example of the Art Deco style called "modernist". Clean shape, taut lines, rational and geometric occupation of space, functionalist aspect. This is a coffee table inspired by cubism. It is made of rosewood and topped with a thick slab of glass. This is a piece of furniture of very good quality of manufacture and materials. It has been completely restored and polished with a buffer; the condition is close to new. The glass has no chips. Here is an attractive, practical model, very modern in appearance and in very good condition.
