Description

These two beautiful 4-pane glass doors in a generous format and good balance will bring you maximum light, whether installed separately or as a double door (which would make a nice width of 160 cm). Dimensions : hauteur 236 cm largeur 80 cm They are in very good condition and are stripped on both sides (no nasty surprises under the paint), to be installed as is or ready to paint. What we particularly like : the thin bars that we no longer know how to do in modern doors, which bring charm and a much more aesthetic and chic look. Price of a door : EUR1250 Careful shipping everywhere - tel +33632315837 et 107 autres éléments vitrés décoratifs à votre disposition !
